

# Deckoviz DASP

Making your space come alive with dynamic art, intelligent ambiance & adaptive storytelling.

**Deckoviz DASP turns walls into living canvases and spaces into emotional, adaptive environments.**

It is an AI-powered Dynamic Art & Storytelling Display with Google TV, designed to blend art, technology, and ambiance seamlessly into everyday life.

**For homes,** Deckoviz works as a dynamic art and photo frame, mood-setter, storyteller, memory visualizer, vision board, poster creator, and multisensory ambiance engine that adapts to time, mood, and moments.

**For businesses,** it becomes an intelligent brand display system, bringing products to life through storytelling, digital signage, visual merchandising, ambiance design, and adaptive customer engagement.

Built on an AI that learns, remembers, and evolves, with weekly feature updates, Deckoviz grows with your space, your people, and your brand.

## FAQ

- Is setup easy? Yes - one plug, WiFi, instant. Easy as a Smart TV. Ultra-low maintenance.
- Does it replace a Smart TV? Yes - it is both. Switch instantly. Use all Google TV apps. Stream Netflix, YouTube, etc.
- Can we schedule photos & art? Yes - through rituals, events. Also, Vizzy proactively suggests & curates.
- Can businesses manage multiple units? Yes - multi-unit dashboard included in the app.
- What does the AI do? Vizzy, your DASP AI, is your space-setter - it creates art & visuals, curates your photos, global photos, art, depending on mood, preferences, lifestyle, time, special days, like birthdays and festivals, it brings your stories to life, it remembers & adapts to the person using it, & it does a whole lot more.
